PART I

JUDICIAL.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Judicial),—dated 15th May 1893.

READ :—

Letter, dated 4th November 1892, from Mr. R. F. Hayes, Proprietor of the Daily Post and Examiner Press, applying to edit, print and publish the Mysore Law Reports.

2. Also letter No. 1295—35, dated 21st March 1893, from the Registrar of the Chief Court, stating that there is no objection to the Mysore Law Reports being published by Mr. R. F. Hayes as heretofore, provided Mr. Hayes agrees to certain conditions.

3. Also docket No. 16700—J. F. 162-92, dated 14th April 1893, from the Chief Secretary, enquiring of Mr. Hayes whether he will agree to certain conditions proposed by the Government.

4. Also letter, dated 17th April 1893, from Mr. R. F. Hayes accepting those conditions.

No. 19107-8—J. F. 162-92, DATED, BANGALORE, 15TH MAY 1893.

ORDER THEREON.—The following are the conditions proposed by the Government :—

I. That the Mysore Law Reports are to be edited by Mr. Travers-Drapes, Barrister-at-Law, with Head notes and Index carefully prepared, as is done in the case of the Indian Law Reports ;

II. That the reports of cases selected for publication are to be printed and issued in uniform monthly parts in convenient sizes and bound together at the end of the year ; and

III. That the charge for each Volume consisting of 12 parts in the whole year, is not to exceed the present rate, *viz.*, Rs. 12 per Volume.

2. These conditions having been accepted by Mr. Hayes, he will be authorized to edit, print and publish the Mysore Law Reports, as heretofore, until further orders.

3. The publication of the Reports in arrears may be completed, as early as possible, as suggested by Mr. Hayes in Paras 2 and 3 of his letter which will be communicated to the Chief Court, for information.

T. ANANDA ROW,
Chief Secretary.

To—Mr. R. F. Hayes, Proprietor, Daily Post and Examiner Press.
The Registrar of the Chief Court of Mysore with copy of Mr. Hayes' letter of 17th April 1893.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Judicial),—dated 29th May 1893.

READ :—

Memorandum dated 10th May 1893, from the Officiating Chief Engineer of Mysore, submitting with reference to para 2 of Government Proceedings No. 16156-64, dated 22nd March last, a report from the Executive Engineer, Kadur Division, on the results of the contracts for irrigation works given to local men during the half year ending 30th September 1892.

No. 20376-84—J. F. 177-92, DATED, BANGALORE, 29TH MAY 1893.

ORDER THEREON.—Recorded. The report shows that in the case of Timmappanayakankere which is the only irrigation work given to a local man during the half year ending on 30th September last, the progress made, though small, has been, owing to scarcity of water, as much as could fairly be expected. The report also shows that more works have been given out to local men during the subsequent half year. The details of these will be looked for in the expected return for that half year.

T. ANANDA ROW.
Chief Secretary.

To—The Chief Engineer in Mysore.
Copy to Deputy Commissioners of Districts.

PART I.

REVENUE.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 10th May 1893.

READ :—

Correspondence ending with Excise Commissioner's letter No. 5753—364, dated 5th May 1893, submitting for approval draft of a Notification inviting tenders for the exclusive privilege of the wholesale Vend of Ganja and any preparation thereof except Halva, throughout the Territories of Mysore, exclusive of the Civil and Military Station of Bangalore, for four years from 1st July 1893 to 30th June 1897.

No. 18603-4—R. F. 176-92, DATED, BANGALORE, 10TH MAY 1893.

ORDER THEREON.—The draft Notification submitted with the above is, with certain modifications, approved, and the following Notification is forwarded to the Compiler, Mysore Gazette, for publication in English and Kanarese in to-morrow's issue of the Mysore Gazette as well as in two subsequent issues :—

NOTIFICATION.

No. 18605—R. F. 176-92, DATED 10th MAY 1893.

Tenders are hereby invited for the exclusive privilege of the wholesale vend of ganja and any preparation thereof, except halva, throughout the Territories of Mysore, exclusive of the Civil and Military Station of Bangalore.

2. The contract will be for four years from 1st July 1893 to 30th June 1897.

3. Every tender must specify the minimum annual revenue which the tenderer will guarantee to Government, and shall be for one lump sum inclusive of local cess for the whole Province. No tender which guarantees to Government less than a minimum annual revenue of Rs. 8,000 including local cess, will be considered. Every tender must be accompanied by a deposit of Rs. 200 in cash, and enclosed in a cover superscribed with the words "Tender for the exclusive privilege of wholesale vend of ganja and any preparation thereof, except halva, for all the Districts of the Mysore Province, excluding the Civil and Military Station of Bangalore."

4. The tenders must be delivered at the Excise Commissioner's Office at Bangalore on or before the noon of the 10th June 1893, when they will be opened by the Excise Commissioner in the presence of such of the applicants as may be present. The applicant whose tender may be selected by the Excise Commissioner for recommendation to Government, will be required to deposit at once in cash, or in Government securities duly endorsed in favor of "the Dewan of Mysore," a further sum equal to one-twelfth (or one month's instalment) of the annual amount guaranteed, failing which the deposit made with the tender, will be forfeited, and the contract otherwise disposed of at the sole risk of the tenderer who shall not be entitled to share in any increase which may thereby accrue.

5. When the decision of the Government is announced, the deposits made by the applicants whose tenders have been rejected, will be returned to them on application. The Government reserves to itself the power of rejecting the highest or any tender without assigning any reason.

6. The party whose tender may be accepted, shall, within 8 days after the Government decision has been communicated to him, deposit in the State Huzur Treasury a sum in cash, or Government securities duly endorsed in favor of "the Dewan of Mysore," which, with the sums previously deposited under para 4, shall be equal to one-fourth of the yearly revenue guaranteed, and shall execute an agreement in the prescribed form, on proper stamp, binding himself to conform to the conditions hereinafter set forth; and if he fails or refuses to sign the agreement, or to make the deposit required, the deposits

already made, will be forfeited to Government, and the contract otherwise disposed of. No tender proposing any modification of any of the terms of this Notification, will be considered.

7. The contract for which tenders are now invited, shall be subject to the following conditions namely :—

Conditions.

I. The contract shall not be transferable without the previous sanction of the Excise Commissioner, subject to the approval of the Mysore Government.

II. For the purposes of this contract, Government may decline to recognize any representative, agent or partner appointed or taken by the contractors during the period of the contract, unless such representative, agent or partner shall have been first approved of by the Excise Commissioner for the time being.

III (A) The minimum amount guaranteed shall be payable to Government in 12 equal monthly instalments on or before the 20th of each month.

(B) The contractor shall pay into the Taluk Treasuries of the State or into the Bangalore District Treasury fees on wholesale sales of ganja and preparations thereof at the rates prescribed by Government and mentioned in para VIII following. If the total amount of fees accruing on the wholesale sales of ganja and its preparations at the rates above mentioned, be not sufficient in any month to make up the instalment of the guaranteed amount for that month, the contractor shall pay such further amount as may be required to make up the deficiency. On the other hand, if the said fees exceed the said instalment, the excess shall be available to make up the deficiency in any other month of the same official year, this deficiency being adjusted by short payment into the Treasury when the khist for the month is tendered to the extent of such *net* excess sales as may be available when such khist fell due. If the sum available is at any time more than sufficient to make up the deficiency to which it has been applied, the surplus thus accruing shall be paid into the Bangalore District Treasury alone with the instalment of the month in which such surplus was realised.

(C) In case of default in the payment of any of the instalments as aforesaid up to the 15th of the month following that for which it is due, interest at 6 per cent per annum shall be payable in addition; and with the sanction of Government, it shall be lawful, for the Excise Commissioner, to declare the deposit forfeited, to order the contract to be taken under Government management, or to declare the lease forfeited and to dispose of it otherwise at the contractor's risk and loss, and further to recover all arrears together with the loss of revenue entailed on Government by such disposal, by the attachment and sale of his property, personal or real, including cash at Wholesale Depôts, in accordance with the rules relating to the recovery of arrears of land revenue.

IV. The Excise Commissioner or Deputy Commissioner of each District shall be at liberty on good and valid grounds existing therefor, to make any alterations in the number and localities of the shops that he may from time to time consider necessary, or to close any shop without any claims for compensation on the part of the contractor.

V. The contractor shall sell ganja and its preparations only to licensed vendors, and shall not interfere with retail vendors in any way.

VI. The ganja and majum and other preparations thereof sold, shall be of good quality, not black or old, or such as may have lost medicinal virtues, and must be without stalks and seeds which should be removed before issue to retail vendors, or equivalent weight of good ganja given for such stalks and seeds when returned by retail vendors, and must not be adulterated. Powdered ganja to the extent of 5 per cent only shall be taken by the vendors. Such powdered ganja may be made up by the retail vendors into *halva*. The contractor shall always keep on hand not less than one month's supply of ganja at each Wholesale Depôt and two months' stock (exclusive of the stock at depôts) at the Provincial Head-quarters Depôt at the Bangalore Distillery.

VII. All ganja and its preparations transferred from a Wholesale Depôt in one District, to a Wholesale Depôt in another District, shall be covered by a Transport Pass in the prescribed form, and when sent from one Wholesale Depôt to another in the same District, they shall be covered by the "Contractor's Pass" in the prescribed form; and the conditions of such Passes shall not be infringed; and the number and date thereon shall be duly quoted in the depôt account against the entry of receipts in the depôt registers. Those sold at the depôt to retail vendors, shall be covered by a Permit in the prescribed form signed by the contractor or his authorized agent, the conditions whereof shall not be infringed.

VIII. The fees inclusive of local cess on the wholesale vend, payable to Government, and rates of prices for the wholesale and retail vend of ganja and majum, per seer of 24 tolas, are fixed as specified below for the whole Province:—

	Rates of fee payable to Govt. on Wholesale vend.	Wholesale price.	Retail price.
	Rs. As. P.	Rs. As. P.	Rs. As. P.
Ganja per seer of 24 tolas	... 0 6 0	0 10 0	0 13 0
Majum or any other preparation of ganja (except halva) per seer of 24 tolas...	0 2 0	0 4 0	0 6 0

IX. The Deputy Commissioner shall have power to close any particular shop or shops, on the requisition of the Military Authorities or Magistracy, temporarily or permanently, and the contractor shall not be entitled to any compensation therefor. But, with the approval of the Excise Commissioner, the number so reduced, might, if the public requirements demand it, be re-established in other adjacent towns or villages.

X. No fee shall be levied for licenses for the retail vend of ganja except in the Cities of Bangalore and Mysore, where a fee of three rupees per mensem shall be charged for each license. Licenses for the vend of opium shall be granted free to vendors holding ganja licenses, and *vice versa*.

XI. The Excise Commissioner in Mysore may permit the contractor to import ganja from beyond the Territories of Mysore under "Import passes" to be issued by him in communication with the authorities of the District from which the article is to be imported, and such drugs, with the passes granted, shall be duly brought to book first at the Provincial Head-quarters Depôt at the Bangalore Government Central Distillery, ere it is utilized or transferred to the Wholesale Depôts. To obviate complications in accounts, the stock of drugs sent to one District shall as far as possible, be sold in that District.

XII. The contractor shall keep at the Bangalore Distillery and render a true and correct account of all cash transactions and of ganja cultivated and drugs manufactured and bought and sold at the Wholesale Depôts, to

the Excise Commissioner, monthly, and allow the officers of the Excise Department free access always to all the accounts kept by the contractor, which shall be true and accurate, and in the prescribed forms. And for the purposes of this contract, the contractor shall open an account showing in detail the prime cost of the drug, cost of carriage by cart and rail, other charges, if any, and total cost of drugs per maund. The number and date of transport or import passes shall be quoted, and each item duly vouched for with original receipts, &c., duly numbered. The cost of establishment, contingencies, &c., shall also be given monthly *in detail*. A copy of this account shall be furnished to the Excise Commissioner monthly, and the original accounts with vouchers shall be kept at the Provincial Head-quarters Depôt at the Bangalore Distillery.

XIII. Disorderly conduct and irregular transactions at the Wholesale Depôts shall not be permitted by the contractor's agents or employés. The Wholesale Depôts shall be provided, at the contractor's cost, with correct scales and weights, duly stamped by Government; and further, all such employés shall, 15 days after the agreement is signed by the contractor, enter into engagements with the contractor to abide by the spirit and letter of the conditions entered into by the contractor with Government, and of the laws and rules in force, and such engagements shall be deposited for each District in the Deputy Commissioner's Office without delay. Such employés shall take out wholesale licenses if employed to sell the drugs, and sign permits for the contractor. With the permission of the Government Arrack carriage contractor, all Mutsaddis in charge of Bonded Depôts and with the consent of the Arrack Vend renters all Mutsaddis in charge of Farm Depôts may be employed as wholesale vendors of ganja and its preparations, and paid such commission on the sales as shall be fixed by the Excise Commissioner, not exceeding one anna per seer sold by them. All ganja and majum remaining on hand on the 1st July 1893 at the Head-quarters Depôt and all Wholesale Depôts, if of good quality and fit for use, shall be taken over by the contractor at an average rate of price struck on the rate entered in the accounts kept by the out going contractor, on the value of the drugs so transferred. Similarly the contractor shall take over all scales and weights at the Head-quarters and other depôts, if correct and in good order, at a valuation to be fixed by the Excise Commissioner. The contractor shall be liable similarly to make over on the determination of his contract unsold stock in hand and scales and weights to his successor in the lease.

XIV. The contractor shall conform to the rules now in force, or any additional rules which may be prescribed from time to time by the Government, not inconsistent with the terms of this notification. Information on any other matters in connection with this contract, will be afforded at the Excise Commissioner's Office.

XV. The contractor shall be at liberty to raise his own ganja on applying for and obtaining a Government patta to be granted by the Amildar, the conditions whereof shall be strictly adhered to, or to purchase it from raiyats permitted to raise it.

XVI. For any infringement of the above conditions, the contractor shall be liable to a fine not exceeding Rs. 500 to be levied at the discretion of the Excise Commissioner, and to the forfeiture of the contract, with the approval of Government, if deemed necessary, and to such further penalties as are prescribed by the laws in force for breaches thereof or of the rules framed by Government.

8. The quantity and *value of ganja sold and the excess sales over and above the minimum guaranteed amount effected in 1891-92 and during ten months of the current year, and the minimum guaranteed amount for 1892-93, are noted below:—

No. 18650-6—R. F. 188-92, DATED, BANGALORE, 9TH MAY 1893.

ORDER THEREON.—The accompanying statement, compiled from the returns received with the foregoing communications, shows the number of villages for which lists A and B have been prepared up to end of December 1892 and those that were subsequently dealt with during the months of January and February 1893 and the number for which lists have yet to be prepared.

2. The statement speaks for itself and is not quite satisfactory to Government. The figures are extremely unsatisfactory in the case of some Taluks where the failure to accomplish any appreciable proportion of the work which remained to be done at the end of December last, is inexcusable.

3. While submitting the next return, Deputy Commissioners of Districts are requested to review them, explain short work, and remark upon the conduct of the Amildars concerned.

4. Deputy Commissioners will also report how these lists are prepared and what steps are taken to check or verify a proportion of the entries therein made.

T. ANANDA ROW,
Chief Secretary.

To—The Deputy Commissioners of Districts, except Bangalore.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 8th May 1893.

READ THE FOLLOWING :—

1. Statements, dated 31st January 1893, from the Deputy Commissioner of the Kolar District.
2. Letter No. 602, dated 18th January 1893, from the Deputy Commissioner, Tumkur District.
3. Letter No. 1036, dated 3rd February 1893, from the Deputy Commissioner, Mysore District.
4. Docket No. 919, dated 18th March 1893, from the Deputy Commissioner, Hassan District.
5. Docket No. 1112—1069, dated 24th February 1893, from the Deputy Commissioner, Shimoga District.
6. Docket No. 362, dated 23rd January 1893, from the Deputy Commissioner, Kadur District.
7. Docket No. 415—384, dated 25th January 1893, from the Deputy Commissioner, Chitaldroog District.

No. 18423-30A.—R. F. 188-92, DATED, BANGALORE, 8TH MAY 1893.

ORDER THEREON.—The accompanying statement compiled from the returns received with the foregoing communications, shows the number of villages for which lists A and B have been prepared up to 31st December 1892 in accordance with the orders of the Government contained in Proceedings No. 3486-93—Cir. 44, dated 25th May 1892.

2. The Government are glad to observe that in the Bangalore District the lists of all the villages have been prepared as reported in the Deputy Commissioner's No. 518, dated 13th December 1892.

3. Of the 2,914 villages in the Kolar District, lists A and B have been prepared and published for 2,744 villages up to 31st December 1892. The Taluks in which lists have yet to be prepared are Bowringpet, Chikballapur, Malur, Goribidnur and the Sub-Taluk of Srinivaspur. Of these the Taluks of Bowringpet and Chikballapur have shown no progress during the quarter under review. The Deputy Commissioner is requested to direct these as well as the other Amildars to expedite the completion of the work without further delay. In the lists submitted up to the end of September 1892, the number of villages in the Bowringpet Taluk was shown as 319, while in the lists now under reference, the number is exhibited as 354. This discrepancy in the number of villages calls for explanation.

4. Of the 2,187 villages in the Tumkur District, lists are reported to have been prepared and published for 1,495 villages and 692 villages remain to be attended to. There has been in fact no progress in the Taluks of Chiknayakanhalli, Sira and Tiptur. The Amildars of these Taluks should be warned that if they do not finish their work at an early date, notice will be taken of their negligence.

5. The total number of villages in the Mysore District is 2,913, of which lists have been prepared for 2,709 villages, leaving 204 villages, of which 101 belong to the Heggaddevankote and 76 to the Chamrajnagar Taluks. The progress made by the Amildars of these Taluks during the quarter under review is very unsatisfactory and they should be directed to complete the work at once.

6. Of the 7 Taluks in the Hassan District, the only Taluk that has shown very little progress during the present quarter is Holé-Narsipur. The Amildar of this Taluk as well as the Amildar of Arkalgud and the Deputy Amildar of Grama should be called upon to submit a nil statement by the end of the current month.

7. The total number of villages in the Shimoga District being 1,995, lists are reported to have been prepared and published for 1,380 villages, leaving 615 to be taken up at the end of the quarter. It is highly unsatisfactory to observe that in the Shimoga Taluk lists have been published for only 9 villages out of 300, and this too, after several warnings from the Deputy Commissioner. Such an utter disregard

of duty on the part of the Amildar calls for the immediate attention of the Deputy Commissioner who should warn the Amildar that any more neglect on his part to complete the lists will be seriously noticed by the Government.

8. Among the other Amildars who are behind the mark is that of Shikarpur who has only published lists for 74 villages out of 194 villages in the Taluk. This Amildar as well as the Amildars of Channagiri, Nagar and Tirthahalli and the Deputy Amildar of Kunsi should be called upon to submit nil statement by the end of the current month.

9. In the Sagar Taluk a nil statement has been submitted but it is remarked at the same time that the B lists not having been prepared in accordance with the Rules, the Amildar has been directed to prepare revised lists. This is unsatisfactory. The Amildar should be directed to publish revised lists by the end of the current month and submit a report as to his having done so.

10. In the Kadur District lists are reported to have been prepared and published for all the Taluks except Kadur and Mudgere. The progress shown in these Taluks, and especially in Kadur, is not at all satisfactory. The Deputy Commissioner is requested to order these Amildars to complete the work at once.

11. Of the 1,379 villages in the Chitaldroog District lists are stated to have been prepared for 1,158 villages, leaving 221 at the end of the quarter under review. The major portion of these villages appertains to the Davangere and Holalkere Taluks where the number of villages to be attended to is shown as 124 and 79 respectively. The Amildars of these Taluks as well as those of Molakalmuru and Hosdurga should be directed to complete the work without further delay.

12, The Government hope to receive nil statements from all the Deputy Commissioners before the end of the current month.

T. ANANDA ROW,
Chief Secretary.

To—The Deputy Commissioners of Districts.

No. 19897-904—R. F. 254—92, DATED, BANGALORE, 22ND MAY 1893.

ORDER THEREON.—The replies received from the several Deputy Commissioners to the Government Proceedings, dated 27th October 1892, No. 102—9, show that the area planted with Supari trees, whether in seperate supari gardens or in mixed gardens consisting of other trees also and the halat duty actually levied in 1890-91 were as shown below :—

District.	Pure Supari gardens.	Estimated area of mixed gardens put down for Supari only.	Total area.	Halat duty realized.	Duty per acre.		
	Acres.	Acres.	Acres.	Rs.	Rs.	A.	P.

Total.....	22,560	34,303	56,863	3,75,759	6	9	8

2. The variations in the duty are remarkable, and the Deputy Commissioners have not given proper explanation as to why the duty in some Districts should only amount to less than a Rupee an Acre, while in Shimoga, it is as much as Rs. 13 an Acre, and in Kadur Rs. 9 an Acre. The Deputy Commissioners of all Districts except Shimoga are requested to report (1) how the Halat duty is now collected, (2) whether the produce of each garden is estimated annually by the Patel of each village, (3) whether *Kalvar Chits* are regularly given for all produce removed from the garden, (4) at what rate allowance for domestic use is made, (5) what is the estimated produce for each Acre, and (6) whether the owners of gardens are regularly called upon to account for the difference between the estimated produce and the actual quantity on which duty is collected. The Government consider that either there is some error in regard to the area shown as planted with Supari trees, or a large quantity of produce is allowed to pass without the payment of duty. It is true that gardens in Shimoga are more productive than those in the other Districts, but the difference in the production cannot be so large as that indicated by the figures given in the above table. The Deputy Commissioners are therefore requested to scrutinize the matter thoroughly and report the measures they have adopted to prevent smuggling in future.

3. The reply to this order must be submitted before the 30th September 1893 at the latest.

T. ANANDA ROW,
Chief Secretary.

No. 20125-32—R. F. 165-92, DATED, BANGALORE, 24TH MAY 1893.

ORDER THEREON.—The accompanying statement shows the number of Darkhasts pending disposal in the Districts during the quarter ending 31st December 1892.

The number undisposed of in the Taluks of—

1. Manjarabad.
2. Arsikere.
3. Gundlupet.
4. Tirthahalli.
5. Hassan and.
6. Magadi.

is objectionably high and calls for immediate action on the part of the Amildars concerned.

2. Government observe that the remarks made by some of the Deputy Commissioners are vague and that the delay in the disposal of the marginally noted Darkhasts among others is unsatisfactory. The special attention of the Deputy Commissioners concerned is drawn to this matter.

Taluk.	Darkhast No.	Date of Darkhast.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 28th May 1893.

READ :—

Correspondence ending with letter No. 1030, dated 1st April 1893, from the Superintendent, Revenue Survey in Mysore.

No. 20374-5—R. 2450, DATED, BANGALORE, 28TH MAY 1893.

ORDER THEREON.—With the letter read above, the Superintendent, Revenue Survey, submits a statement of lands under the private tank of Mandbele in the Devanhalli Taluk, for which remission of $\frac{1}{4}$th assessment is claimed and recommended.

2. The total amount of assessment on the lands now in occupation under the tank referred to being Rs. 184—4—0, as shown on the margin, sanction is hereby accorded to the remission of $\frac{1}{4}$th of the above assessment.

Magni.	No.	Village and Name of Tank.	Name of present holder.	Amount of assessment.		
				Rs.	A.	P.
Channarayapatna.	1	Mandbele Tank, Mandbele ...	Lakshmi Narsappa ...	92	4	0
		Do ...	Ramappa ...	92	0	0
			Total.....	184	4	0

3. It must be clearly understood and explained to the owners of the tank, that if they fail to keep the tank in good order, and any of the lands under them now under occupation are relinquished in consequence thereof, or so abandoned as to necessitate their being sold for arrears of revenue and bought in by Government, the remission now sanctioned will be withdrawn and the tank taken under the management of Government.

T. ANANDA ROW,
Chief Secretary.

To—The Superintendent, Revenue Survey in Mysore.
The Deputy Commissioner, Bangalore District.

READ :—

Letter No. 5011, dated 30th March 1893, from the Comptroller to the Government of Mysore, submitting for orders copy of letter No. 2623 of the 3rd February 1893 from the Deputy Commissioner of the Shimoga District, stating with reference to the Comptroller's circular No. 1782 of the 8th idem, based upon the orders of Government contained in Proceedings No. 13292-300—R. F. 213-92, dated 4th February last, that a half-yearly inspection of the Taluk Treasuries according to the details given in the form of the annual inspection report may not always be feasible but is practicable only once a year at the Jamabandi time when alone an officer can afford to be at a Taluk Head-quarters for a number of days, and that on other occasions the inspection of the Cash, Currency notes, Stamps, &c., would be quite sufficient, and asking for a re-consideration of the said circular.

No. 20264-72—R. F. 213-92, DATED, BANGALORE, 28TH MAY 1893.

ORDER THEREON.—Government direct that the detailed report prescribed by the Comptroller shall be submitted twice a year and that the cash balances shall be verified and reported upon as often as practicable and oftener than twice a year. In all cases, the examination should be without notice.

T. ANANDA ROW,
Chief Secretary.

To—The Comptroller to the Government of Mysore.
The Deputy Commissioners of Districts.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 29th May 1893.

READ :—

The following letter from the Excise Commissioner, No. 6057—389, dated 18th May 1893 :—

I have the honor to report that, under Government Notification No. 17583—R. F. 308-92, dated 25th April 1893, tenders for the exclusive privilege of establishing Bonded Depôts at the Bangalore City and in all the Districts except the Bangalore District, and transporting thereto, country spirits from the Government Central Distillery, Bangalore, *under bond*, and distributing the same to the respective arrack vend farmers and separate shopkeepers attached to the said Depôts, during the period of four years beginning with 1st July 1893, and ending with 30th June 1897, were received to day in my office, and opened in the presence of such of the tenderers as were present, with the results shown in the accompanying list.

2. It will be seen from the enclosed list that, of the tenderers both for the Bangalore City and all the Districts except the Bangalore District, Messrs. Bajjanna and Maigonda Deva Mudaliar have jointly offered the lowest rates. Mr. Bajjanna is the agent of the present contractor Mr. C. Papanna, and Mr. Maigonda Deva Mudaliar is the adopted son of Mr. Rai Bahadar A. Narainsawmi Mudaliar. I have accepted their tender both for the Bangalore City and all the Districts, except the Bangalore District, and beg to recommend the same for the approval of Government.

3. M. Subba Rao, Ganja Contractor of the Civil and Military Station of Bangalore, and B. Venkat Rao, an arrack vend farmer at Arsikere, have both tendered five pies for the Bangalore City alone. M. Subba Rao is the late Sheristadar of Messrs. C. Papanna and Co., late arrack contractors, and he appears to have taken up the Ganja Contract of the Civil and Military Station from 1st April 1893. I believe he is capable of carrying on the business connected with the Bangalore City Depôt. B. Venkat Rao is a stranger to Bangalore, and is not likely to be able to cope with the business satisfactorily. I have retained the deposits of both these tenderers for the consideration of Government. Under all circumstances, I think it is most convenient to have only one contractor both for the Bangalore City Depôt and Mofussil Depôts.

4. At the request of Mr. Ewart, agent of Messrs. Parry and Co., I have retained his deposit also, the deposits of all the remaining tenderers being immediately returned to them.

List of tenderers for the liquor transporting contract.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 29th May 1893.

No. 20218-27—R. F. 308-92, DATED, BANGALORE, 29TH MAY 1893.

ORDER THEREON.—The Government agree with the Excise Commissioner's opinion and approve of the tender of Bajjanna and Maigondadeva Mudaliar being accepted. The deposits of the other tenderers should be returned. The rates thus accepted for the transport of liquor under the terms of the Notification No. 17583—308-92, dated 25th April last, are 6 pies per gallon for the Bangalore Town Depôt and 2 annas and 1½ pies per gallon for the Mofussil Depôts.

T. ANANDA ROW,
Chief Secretary.

To—The Excise Commissioner in Mysore.
The Comptroller to the Government of Mysore.
The Deputy Commissioners of Districts.

READ :—

Excise Commissioner's letter No. 5487—336, dated 15th April 1893.

No. 20296-305—R. F. 17-92, DATED, BANGALORE, 31ST MAY 1893.

ORDER THEREON.—As the 2nd Toddy Inspector sanctioned for the Yedatore Taluk in Government Proceedings No. 13672-81—R. F. 17-92, dated 16th February 1893, is now reported to be unnecessary, no official need be appointed for that post. The pay will be brought under savings. It is premature to consider increase to pay of Toddy Inspectors.

2. The amounts, *viz.*, Rs. 30 and 25 entered as rates of pay for Toddy Inspectors in column 13 of Statement A and column 15 of Statement B annexed to the Government Proceedings above cited, include the Horse Allowance of Rs. 10—0—0 prescribed for them. The amounts should have been printed as 20 + 10 and 15 + 10. It is requested that they may be read and understood accordingly. Similarly, in the case of Darogas, the amounts entered in column 20 of Statement B include in each case the Horse Allowance of Rs. 15 separately shown in column 3 of Statement A.

T. ANANDA ROW,
Chief Secretary.

To—The Excise Commissioner in Mysore.
The Comptroller to the Government of Mysore.
The Deputy Commissioners of Districts.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 20th May 1893.

READ :—

The District returns and reports of the Revenue Administration for the years 1889-90 and 1890-91.

No. 19520-60—R. F. 236-92, DATED 20TH MAY 1893.

REVIEW THEREON.—The rain-fall is gauged in 76 stations in the State, at the Head Quarters of Taluks and of the Sub-Divisions of Taluks. It is a question for consideration whether the registering stations are sufficient to gauge accurately the fall in the Province. The Taluks and Sub-Taluks cover a considerable area and the registry at their Head Quarters can hardly tell the story for the whole Taluk or the Sub-Division. Heavy rain-fall over an area of two square miles and no rain in the surrounding tract of that area is not, by any means, an unusual phenomenon in the Mysore undulating table-land. Each Shekdar's Hobli station may have a register, that official being quite capable of keeping it properly, subject of course to periodical inspections of Amildars and other higher officials.

2. The average rain-fall in the whole Province in 1890-91 was 35·48 inches against 41·86 and 37·65 inches in the years 1889-90 and 1888-89 respectively. The average for each District for 20 years is given below as compared with the fall for 1890-91 :—

	20 years' average.	Average for 1890-91.
1. Bangalore	29·34	32·37
2. Kolar	27·58	26·13
3. Tumkur	25·11	27·80
4. Mysore	27·24	28·53
5. Hassan	34·81	28·49
6. Shimoga	65·29	66·47
7. Kadur	59·72	51·79
8. Chitaldroog	20·54	21·27
Average for the Province.....	36·20	35·48

3. The rain-fall accounts of the year 1890-91 under different monsoons together with 4 maps of Mysore, showing the average fall in each of the seasons, the country being divided into tracts according to the variations of the rain-fall in different localities, and a Memo comparing the quantity of rain-fall registered in 1890-91 with the average of 20 years, are printed in the Appendix.

4. The average out-turn of all the crops per acre in lbs. is given in the statement, No 2, printed in the Appendix : the approximate out-turn of rice and ragi is given below :—

Districts.	Rice.			Ragi.		
	1888-89.	1889-90.	1890-91.	1888-89.	1889-90.	1890-91.
1 Bangalore	522	482	463	973	1,160	1,142
2 Kolar	900	1,000	1,000	800	900	900
3 Tumkur	910	944	965	1,165	1,181	1,216
4 Mysore	1,409	1,371	1,264	667	721	724
5 Hassan	1,143	629	776	943	839	719
6 Shimoga	440	225	400	1,717	176	180
7 Kadur	568	577	467	497	418	334
8 Chitaldroog	495	614	631	539	618	610

The figures given against Shimoga under "Ragi" for 1889-90 and 1890-91 show a considerable decrease as compared with those of the previous year. The accuracy of the figures is doubted. The Deputy Commissioner will be called upon to submit an explanation as to the cause of decrease.

5. *Prices.*—Statement (No. 3) showing prices of produce per maund of 80 lbs. during the years 1888-89, 1889-90 and 1890-91, is given in the Appendix. Prices for rice and ragi are given below :—

	Rice.									Ragi.								
	1888-89.			1889-90.			1890-91.			1888-89.			1889-90.			1890-91.		
	Rs.	A.	P.	Rs.	A.	P.	Rs.	A.	P.	Rs.	A.	P.	Rs.	A.	P.	Rs.	A.	P.
1 Bangalore ...	3	8	0	4	1	0	4	2	2	1	0	0	0	15	8	1	3	6
2 Kolar ...	3	4	0	3	4	8	3	15	1	1	0	0	0	15	9	1	5	0
3 Tumkur ...	3	5	8	3	6	0	3	14	2	0	14	10	0	14	9	1	6	0
4 Mysore ...	3	9	3	3	14	7	4	7	9	1	4	8	1	1	1	1	6	1
5 Hassan ...	3	0	6	3	7	5	4	0	8	1	2	0	1	2	6	1	13	11
6 Shimoga ...	3	0	0	3	2	8	3	13	0	0	14	0	1	0	3	1	4	4
7 Kadur ...	2	5	7	2	14	0	3	13	0	0	14	9	1	3	0	1	10	0
8 Chitaldroog ...	3	2	1	3	5	4	4	0	0	0	11	4	0	13	4	1	0	0

6. It is not clear from the reports that the prices quoted are wholesale prices at the places of production : market retail prices at the places of consumption appear to have been given in some of the statements. Uniformity is wanting, and comparison therefore is not of much value : in future reports, wholesale prices at places of production will be given.

7. Statistics under Export and Import are not based on accounts kept by Government servants, nor are they framed on books kept regularly and correctly by traders and merchants ; the exports shown are, moreover, not from Mysore to British or other territories and *vice versa*, but mostly from one Taluk or District of Mysore to another in the same country : Deputy Commissioners report that the Shekdars make a verbal enquiry at Taluk Head Quarters and insert, in the statement, the figures which may appear to them fairly reasonable with reference to previous year's statements and the trade activity in the particular year for which the statistics are wanted. The information thus obtained must necessarily be inaccurate, and misleading and have no value. If Deputy Commissioners, through whose Districts a Railway Line may pass, will obtain correct information of imports from, and exports to, countries outside Mysore from Railway books and submit an annual statement showing such transaction, the information will be more reliable.

8. The subjoined statement of agricultural stock exhibits a good steady increase in the number of the live stock of the Province :—

	1888-89.	1889-90.	1890-91.
Cows and Bullocks	2,868,736	2,924,528	2,940,841
Sheep and Goats	2,387,202	2,445,824	2,452,745
Buffaloes	489,069	483,575	499,964
Ploughs	679,158	687,548	696,648
Carts	100,609	104,459	107,688

9. The loss of cattle in the two years under review was considerably below that sustained by the raiyat in the previous year as will be seen from the abstract given below :—

	1888-89.	1889-90.	1890-91.
Cows	50,517	29,037	23,860
Bulls and Bullocks	39,691	23,057	17,516
He-Buffaloes	10,048	6,759	4,712
She-Buffaloes	19,186	10,526	7,949
Sheep and Goats	63,330	52,085	44,904

The loss of cows in the Shimoga District was the highest 8,066 in 1889-90, Mysore comes in next with a loss of 5,761 ; Kolar the third with 3,197 ; the lowest figure was in the Kadur District 1,259. In the following year, Shimoga again takes the lead 5,321 ; Hassan comes in second, 3,475 ; Bangalore the third, 3,376 ; and Kadur again shows the smallest loss 1,299. Bulls and Bullocks also suffered the most in the Shimoga District, 4,777 ; the least in Kadur 1,113 ; altogether Shimoga was the worst District for cattle in both the years.

10. Fairly good rain, steady increase in the agricultural stock, comparatively small loss in the cattle wealth of the raiyat all probably tended to increase the cultivated area of the country :—

The wages entered are per diem; it may be observed that skilled labor in Bangalore is cheaper than in many places. The cart-hire is almost uniform in all or almost all the Districts.

12. The population in the Census of 1881 was 4,092,648, excluding the Civil and Military Station. Each year's report by the Head of the Medical Department notes the births and deaths of the year and according to these reports the population ought to be at the end of 1890-91, 4,350,516. The Census of 1891 gives the population at 48,43,523. It may be stated that the difference is not altogether very great considering that registration is very imperfect yet; its importance is insufficiently recognised.

13. *Sanitary condition.*—Mortality from all causes in the three years is compared below :—

	1888-89.	1889-90.	1890-91.
Cholera	1,335	1,241	1,469
Small-pox	5,855	5,272	3,941
Fevers	37,549	43,298	53,458
Bowel-complaints	5,964	5,751	5,222
Injuries	997	1,040	975
Other causes	20,029	19,150	17,331
Total.....	71,729	75,752	82,396

The figures show that the epidemics were fairly under control though in 1890-91 there was a slight increase under "Cholera". The small-pox victims were not so many as in 1888-89 and there was a gratifying decrease in 1890-91. The disease that carried off the largest number was fever probably due to the virulent type of influenza which was not easily put down: with a larger number of dispensaries chiefly in the unhealthy parts of the State the mortality under fever, bowel-complaints and other causes might possibly be minimized: for, dispensaries are admittedly becoming more popular in the country and people seem to be acquiring confidence in Europe medicines and in Western method of treatment. The Senior Surgeon is requested to submit proposals to Government for additional dispensaries in such localities as he may consider necessary.

Births were as follows:—

1888-89	...	...	...	96,073
1889-90	...	...	...	84,766
1890-91	...	...	...	82,022

The number of births was less in 1889-90 than in 1888-89 and less again in 1890-91 than in 1889-90: this was no doubt due to fever and influenza, recovery to sound and normal health from their effects being long and tedious.

14. The two years may therefore be considered only moderately prosperous years. The emigration from the State Taluks to the adjoining British Territory and to the Coffee tracts in the State from Maidan Taluks was as usual and nothing abnormal, though the reports and statements give very little information on this very important point. In future reports, the Deputy Commissioners will invariably state with as little inaccuracy as possible, the strength of the emigrating population (men, women and children, in families, or single) and the castes, the places from and to which the emigrants go, the months of emigration, the duration of the absence from home, how many stop away, how many return and how many die. It will also be very useful and interesting to know if the emigration is the result of dire necessity and that it may cease if every year in the near neighbourhood there were Government works to occupy the emigrating population during the months they are usually away: or, that the emigration is accepted cheerfully as being more remunerative than employment on Government Public Works: The Government trust that Deputy Commissioners will pay particular attention to this subject and watch the yearly change. A good percentage of deaths or emaciated sickly patients among emigrants would be a regrettable fact and the Government are bound to secure the fullest information about them.

15. *Number of villages, Government and Inam.*—In 1887-88, the returns showed 32,020 populated, depopulated, Government, Inam and Kayamgutta; in the next year, the total was 31,623; in the 3rd year or 1889-90, it was 31,342 and in 1890-91, it is shown as 31,831: The variations are due to the hamlets which have been added on to primary villages not having been shown as hamlets, an error which was pointed out in the Review of the Administration Reports for the year 1888-89. The Deputy Commissioners report that all such omissions have been rectified as directed by Government and the returns for 1890-91 are correct: it is hoped they are so. Detailed statements are in the appendix: Abstract is given below:—

	Government.		Inam.	Total.
	Primary.	Hamlet.		
1887-88	17,341	11,916	2,763	23,020
1888-89	17,382	11,503	2,738	31,623
1889-90	17,299	11,344	2,699	31,342
1890-91	17,183	11,407	3,241	31,831

16. It is a question for consideration whether the distinction between primary and hamlet should be kept up in the accounts. The Revenue Survey ignores it; all the hamlets being absorbed in the nearest Asli village and the villages are all now Asli.

17. The inaccuracies in the returns were mostly in the Districts of Kolar, Mysore and Kadur.

18. No new villages have been formed, nor has any village become bechirakh.

19. The extent of Government holding shows a steady increase, of which acres 40,381 and 23,956 in the two years respectively are due to survey net excess:—

	Extent.	Assessment.
1889-90	5,537,247 acres.	Rs. 77,50,050
1890-91	5,602,587 „	„ 78,17,891

20. The increase was chiefly under dry and wet, as will be seen from the Statement No. 9 in the appendix of which the following is the abstract:—

No.	Particulars.	1888-89.		1889-90.		1890-91.

* Due to remeasurement on complaints, &c,.

22. The figures are interesting ; in 1888-89, the extent of relinquishment was 102,000 acres against 85,000 acres and 95,000 acres in the two following years when the rain-fall was not considered sufficiently good : similarly, under increase, lands newly taken up in 1888-89 was 157,000 acres against nearly 2 lacs in the next following year and 1,39,000 in the third year ; showing somewhat that relinquishments and darkhasts do not altogether depend upon rain-fall.

23. Under " Resumed on account of death, desertion, &c.," it is gratifying to note a fall : 1,300 acres in 1888-89 ; 1,250 in 1889-90 ; 1,090 in 1890-91. Under " Other causes" in the statements for decrease and increase, large figures are

entered. The "Other causes" are not explained in the accounts and it would be well to explain some of the big items. This should be done in future.

24. Examining the details under "Resignation," it is seen that under "Dry," the figures for the three years are 84,569 acres, 70,815 acres and 76,989 acres; under "wet" they are 15,696, 13,093, 16,907 acres and under "Garden" 2,208, 1,280, 1,494 acres: Hassan shows the least resignation under "dry"; and Mysore naturally the least under "wet" and "garden": Of the 1,494 acres of garden resigned 1,315 acres or nearly $\frac{13}{16}$ were miscellaneous gardens; such as gardens growing vegetables, tobacco, &c. Shimoga and Kadur resigned 20 and 18 acres of areca, Tumkur resigned 62 acres of cocoanut, while the other Districts resigned very small extents under this head. Altogether resignations under "garden" are of very small value. *Vide* statement below:—

letails under "Wet," "Dry" and "Garden" for each of the Districts for the hree years :—

| | | |

26. It would be interesting to know how much of the new cultivation is due to extra irrigation works, or enlargement of their capacity; it is therefore requestd that a statement showing these details under channels, tanks, rain-water, wells and other sources be invariably added in discussing this point in the future administration reports of the Districts.

27. The District reports and the accounts do not fully explain the cause of reliuquishments; this ought to be done in future reports; good and timely rain-fall ought to diminish relinquishments if they do not increase area under cultivation, unless a large number of the agricultural class suffers death, or emigrates, or becomes insolvent or incapacitated otherwise to continue to hold the farms: again the reports and accounts do not show separately, extent transferred from one Pattadar's name to another, from extents transferred from one Taluk to another: the items should be shown separately.

28. The wet extent is shown in the following statement distributed under river channels, tanks, rain-water and other sources:—

Sources of Irrigation.	1888-89.		1889-90.		1890-91.	
	Extent.	Assessment.	Extent.	Assessment.	Extent.	Assessment.
River channels	73,842	4,33,987	77,727	4,54,967	78,698	4,63,899
Tanks	3,20,789	13,22,005	3,30,831	13,73,042	3,54,282	14 40,290
Rain-water	2,18,239	6,25,104	2 18,595	6,17,661	1,95,697	5,5,9213
Other sources...	30,116	1,02,351	31,067	1,05,253	30,299	1,00,662
Total.....	6,42,986	24,83,447	6,58,220	25,50,923	6,58,976	25,64,064

29. The Land-Revenue Raiyatwari is given in para 20; other items of Land Revenue are noted below:—

Number	Particulars.	1888-89.	1889-90	1890-91.
1	Revenue from Jodi, Kayomgutta and Sarvamanyam villages ...	2,13,434	2,16,020	2,19,541
2	Quit-rent on Minor Inams	2,52,382	2,49,659	2,53,288
3	Shrayavillages	287	11	15
4	Batayi lands	1,704	2,185	820
5	Pasture lands	1,38,284	1,41,057	1,36,976
6	Amarayi	69,066	70,160	76,355
7	Sale proceeds of right of occupancy	1,15,133	1,52,289	97,452
8	Notice fees	22,371	23,557	14.489
9	Royalty on Mining leases	1,01,726	1,96,638	2,34,541
10	Other items as per Statement No. 11	42,317	54,131	53,457
	Total.....	9,56,704	11,05,713	10,86,734
	Raiyatwari excluding Irrigation Cess	74,30,020	76,16,707	*76,81,238
	Total Land Revenue including Raiyatwari	83,86,724	87,22,420	87,67,972

*Adding to this Irrigation Cess, Rs. 1,36,653
the total is Rs. 78,17,891

30. There is not much room for large Increase or Decrease under any of these minor heads: the Batayi must go down year by year; Shraya Village tenure is evidently not much appreciated; under "Amarayi" also there is not much scope for increase unless the Government undertake extensive plantation of fruit trees. Revenue from alienated villages is fixed, likewise Quit-rent on minor Inams: slight variations under "Pasture-lands" might happen, but the extent of these lands being limited, the variations would not be much. The amount under royalty on gold is a very hopeful item from past experience. Total Land Revenue under all heads was as follows:—83,87,000 Rs. 87,22,500 Rs. 87,68,000 Rs. for the years 1888-89, 1889-90 and 1890-91 respectively, excluding Irrigation Cess.

31. The chief items of increase were under "Raiyatwari and Royalty on Mining Leases" and in the year 1889-90 under sale proceeds of right of occupancy. Under Raiyatwari Rs. 82,880 and Rs. 41,260 were due to Survey Settlement in the two years: that is to say, 41·47 and 60·81 percentage on the total increase.

32. The sale of occupancy right was chiefly in the Hassan District where a large extent of coffee lands has been sold. The following statement gives further particulars:—

Districts.	1888-89.	1889-90.	1890-91.	
Bangalore ...	7,861	9,103	9,381	
Kolar	5,252	*13,874	10,762	*The increase was due to the sale of trees of lands during the Survey Settlement of the Kolar Taluk.
Tumkur ...	12,479	16,153	‡8,180	‡The cause of decrease is not explained in the Report.
Mysore... ...	14,553	14,813	11,414	
Hassan... ...	34,404	†61,193	§28,153	†This includes Rs. 42,200 being the sale proceeds of coffee lands.
Shimoga ...	6,071	5220	3,943	§The decrease was owing to the prohibition of Gomal lands being given for coffee cultivation without the orders of Government.
Kadur	28,962	23,148	18,007	
Chitaldroog ..	5,551	8785	7,611	
Total.....	1,15,133	1,52,289	97,451	

33. An abstract statement showing the demand including arrears of previous years, the collections, amount remitted and the balance is appended:—

	Total.....	91,187	51,954	69,515	12,98,279	8,47,887	5,98,561	13·23	8·45	6·22

34. The collection work in the Chitaldroog District was the most satisfactory; Tumkur has done very fairly; likewise Bangalore and Hassan; Mysore is very far behind with arrears of Rs. 1,87,000, while Kolar is not quite so bad as Mysore—arrear Rs. 1,18,600. The entire balance at the commencement of 1891-92 was Rs. 5,98,561, of this sum, Rs. 4,17,594 have been collected as per accounts received up to 30th April 1892. At the end of para 20 in the Review of the Administration Reports for 1888-89, the following remarks were made regarding old arrears of land revenue:—

"It is altogether undesirable to allow such old arrears to be kept hanging "against the raiyats. If they can be collected, they must be realized at once. If "they cannot be collected without much hardship to the raiyats, they should be "written off the accounts as irrecoverable. The Deputy Commissioners concerned "are requested to obtain individual lists of arrears at once and recommend the "remission of all such old arrears as cannot be immediately collected without "oppression."

35. It is presumed that under the above authority, proceedings have been adopted and are being adopted to reduce the balance as much as possible. The balance of old arrears up to the end of 1887-88 was Rs. 3,86,095 as per accounts of 1888-89 as stated in the review quoted. The balance now outstanding of that amount is Rs. 1,00,699. The following statement gives each year's arrears:—

Districts.	Up to 1879-80.	1880-81.	1881-82.	1882-83.	1883-84.	1884-85.	1885-86.

36. It is satisfactory to note that coercive measures were adopted in the three years for the realization of only very small amounts of arrears : in 1888-89 for the recovery of about Rs. 63,000; 1889-90 of about Rs. 36,000; and in 1890-91 about Rs. 28,000. The least number of coerceive measures was in the Chitaldroog District. This is to a great extent due to easy assessment enabling the raiyats to pay up Government dues without difficulty : in addition, the District had an officer who was specially active in this branch of his duty.

37. The following remission statement shows that in the three years under Review, the total amount remitted under *arrears was Rs. 1,66,604, for the current year Rs. 46,052, making a total of Rs. 2,12,656 ; it is hoped that nearly the whole of the arrears, especially of very old years going back as far as 1876-77 have been written off the accounts. No remissions were granted under "Wet waste" for the years 1888-89, 1889-90 and 1890-91 ; other items call for no remark :—

*On account of death, desertion and poverty Rs. 1,18,418.

No.	Particulars.	1888-89.		1889-90.		1890-91.

	Balance	42,950	30,307	87,043

40. Under timber for 1890-91, the large increase is due to heavy sales in Mysore for new buildings in the Western Extension. Decrease under firewood from 82,700 in 1889-90 to 35,200 is chiefly due to withdrawal of seigniorage on fuel in the Bangalore District under orders of Government No. 8,237—116, dated 30th January 1890: "Other Items" include sale proceeds of elephants: Of the total demand, very nearly the whole amount (deducting small remissions) was collected, *vide, supra.* The receipts and working charges of the Department are given below:—

	1889-90.			1890-91.		
	Receipts.	Working Charges.	Profits.	Receipts	Working Charges.	Profits.

42. The increase is steady, showing that consumption is becoming more and more general and larger too, owing to increase of population and better wages.

43. Mohatarfa: Statement No. 14 in the Appendix: Abstract of it is as follows:—

No.	Particulars.	1888-89	1889-90.	1890-91.
1	House tax	1,46,897	1,47,872	1,39,606
2	Shop tax	79,482	79,978	80,700
3	Loom tax	50,923	51,170	51,547
4	Oil-mill tax...	10,991	11,055	10,993
5	Cart tax	45,523	47,874	47,607
6	Other items...	646	644	447
	Total.....	3,34,462	3,38,593	3,30,900
	Arrears at the beginning of the year	97,535	1,00,621	77,403
	Total.....	4,31,997	4,39,214	4,08,303
	Deduct collections	3,29,238	3,57,884	3,41,057
	Deduct remission	2,141	3,946	8,334
	Balance	1,00,618	77,384	58,912

44. The Demand amount shown is exclusive of alienation in favor of Municipalities of which there are 98: in nine of these the entire Mohatarfa is handed over to them. The rest get half the Mohatarfa amount. Decrease under house-tax in the year 1890-91 is due to the exemption claimed under Government Order No. 9591-8—Cir. 210, dated 8th March 1890, which laid down that a raiyat owning land in one village and living in another, but within 5 miles from his land should be exempted from house-tax: increase and decrease under shop and loom and oil-mill, &c., are small and call for no remark. The percentage of balance to demand is shown below:—

Percentage of the Balance to the Demand including arrears.

Districts.	1888-89.	1889-90.	1890-91.
Bangalore	22·50	10·39	8·02
Kolar	48·34	40·27	36·44
Tumkur	6·44	7·69	8·06
Mysore	34·75	23·36	15·87
Hassan	18·46	10·23	9·98
Shimoga	4·84	7·75	5·39
Kadur	3·27	3·41	5·48
Chitaldroog	Nil.	Nil.	Nil.
Total.....	23·29	17·61	14·42

45. Chitaldroog, as usual, is the best in collection work. Kadur and Shimoga come next: Kolar arrears are the heaviest to which the attention of the present Deputy Commissioner is drawn. In the Review of the reports for 1888-89, Government remarked, "in an item like "Mohatarfa," there is apparently no sufficient reason why such large balances should be allowed to accumulate. The arrears should therefore be collected as soon as possible." The Deputy Commissioner's attention is invited to this warning.

46. ***Sayer and Octroi.***—Statements Nos. 10 and 16 in the Appendix: their abstract is given below :—

No.	Particulars.	1888-89.	1889-90	1890-91.
1	Duty on Supari	3,97,050	4,03,736	3,75,759
2	Moiety of Octroi collected in Municipalities	9,997	10,405	10,769
3	Miscellaneous	1,140	1,109	2,066
	Total.....	4,08,187	4,15,250	3,88,614
	Arrears at the beginning of the year	2,365	1,331	344
	Total	4,10,552	4,16,581	3,88,958
	Deduct collections	4,07,546	4,16,075	3,88,591
	Do remissions	10	162	...
	Balance	2,996	344	367

47. The single item calling for remark is the duty on supari ; slight increase in 1889-90 due to very good crop : fall in the following year due to smaller crop from the "Rot" disease or "Koleroga." Nearly the whole demand was collected.

48. There is a decrease under "Salt Revenue" being the collection of duty on the working of earth salt-pans chiefly in the Districts of Chitaldroog, Tumkur and Kolar. The total demand and arrears of previous years, their collection, balance and the amount remitted are as follow :—

	1888-89.	1889-90.	1890-91.
Arrears	4,763	5,471	1,271
Demand	27,871	29,545	24,000
Total.....	32,634	35,016	25,271
Collection	27,140	33,745	22,461
Remission	23	0	40
Balance.....	5,471	1,271	2,770

There ought to have been no balance under this head of revenue.

49. ***Stamp.***—Under this head, it was directed in the last Review, that the sale proceeds of judicial stamps should be shown separate from the proceeds of non judicial stamps. Some of the Deputy Commissioners have reported that necessary information could not be obtained to separate the two items : while others have

treated Court-fee labels as judicial, and Stamp papers as non-judicial: an evident mistake: Revenue from stamps is shown under :—

Districts.	1888-89.	1889-90.	1890-91.				
			Stamp papers.	Receipt Stamps.	Court-fees labels.	Penalties, fines, &c.	Total.
Bangalore	1,25,858	1,42,039	49,377	2,734	85,099	7,121	1,44,331
Kolar	45,156	51,443	19,546	1,270	29,623	1,322	51,761
Tumkur	35,164	37,150	16,668	732	21,188	1,256	39,844
Mysore	1,66,613	1,65,979	63,783	3,504	97,943	3,064	1,68,294
Hassan	45,778	46,944	19,397	796	28,094	1,444	49,731
Shimoga	64,878	66,465	15,261	1,396	45,267	1,612	63,536
Kadur	37,307	38,585	14,620	830	19,567	1,635	36,652
Chitaldroog	24,972	23,767	9,058	680	12,439	727	22,904
State Huzur Treasury ...	9,991	20,402	...	...	...	2,804	2,804
Total.....	5,55,717	5,92,774	2,07,710	11,942	3,39,220	20,985	5,79,857

50. The decrease against the Huzur Treasury is due to the absence of heavy collection on Gold Mining leases ; the receipts in the previous two years were unusual.

51. The information, with regard to " Receipt stamps," is not forthcoming for previous years and the figures for 1890-91 cannot, therefore, be compared with those of the previous years. The income under this head is more in Mysore District than in Bangalore and the realizations in Kolar exceed those of Hassan.

52. Law and Justice :—

For 1888-89.	For 1889-90.	For 1890-91.
54,969	60,382	59,829

53. *Registration* :—

Districts.	1888-89.	1889-90.	1890-91.
Bangalore	12,819	17,238	14,858
Huzur Treasury	3,875	3,501	1,022
Kolar	3,758	3,622	6,422
Tumkur	3,865	4,290	4,877
Mysore	18,667	17,611	20,871
Hassan	5,108	5,723	6,203
Shimoga	4,823	5,315	4,722
Kadur	4,737	5,560	5,405
Chitaldroog	1,953	2,056	2,154
Total.....	59,605	64,916	66,534

The Department in Mysore as elsewhere is a financial success of course. *Vide* Statement below:—

	1888-89.	1889-90.	1890-91.
Total receipts under Registration as per Comptroller's Accounts...	59,605	64,916	66,529
Total expenditure Do do ...	28,967	29,563	32,201
Balance	30,638	35,353	34,328

54. Jails: —

1888-89.	1889-90.	1890-91.
1,344	5,051	1,245

55. Police :—

1888-89.	1889-90.	1890-91.
4,128	3,845	3,548

56. Education :—

1888-89.	1889-90.	1890-91.
26,581	26,621	44,457

Chief item being school fees amounting to Rs. 16,130, 23,409 and 21,310 in the years 1888-89, 1889-90, and 1890-91 respectively. The unusually large increase in 1890-91 is due to the collection of arrears and more prompt realization of the value of books sold as well as a larger sale of school books.

57. *Public Works.*—Raiyats' contributions towards repairs of tanks and extensions of other irrigation works is the principal head of Revenue: the demand, collections and balance are given below for the year 1890-91 :—

	Rs.
Arrears at the beginning of the year	12,978
Demand for the year	45,914
Total.....	58,892
Collections	49,136
Remission	2,798
Balance at the close of the year... ...	6,958

Similar information is not available for the other two years.

58. Amrut Mahal Revenue is from sale proceeds of cattle chiefly. Receipt are as follows :—

1888-89.	1889-90.	1890-91.
49,655	39,042	34,343

59. The number of cattle sold in the three years is 1,210, 827 and 669, respectively. The decrease every year in the number of cattle sold needs explanation.

60. *Interest.*—Consisting of interest at one pie per rupee per month, about 6 per cent per annum collected from raiyats who are revenue defaulters, and interest on loans granted by Government and interest on investments on Mysore Government and Government of India Pro-Notes. Particulars are given below :—

	1888-89.	1889-90.	1890-91.
1. Interest on arrears of Revenue ...	26,546	23,612	26,841
2. Interest on loans	2,336	13,267	7,933
Total.....	28,882	36,879	34,774
3. Interest on investments and deposits, &c.	2,38,151	2,77,083	3,09,854
Total.....	2,67,033	3,13,962	3,44,628

The amount No. 1 for 1890-91 is the demand. Of this sum, Rs. 17,457 was collected, leaving a balance of Rs. 9,384.

61. Medical :—

1888-89.	1889-90.	1890-91.
2,487	4,014	6,233.

62. *Railway.*—The line is 296 miles in length, the portion between Mysore and Bangalore, 86 miles, was constructed out of the State Revenue ; that between Bangalore and Gubbi from borrowed capital of 20 lakhs of rupees and the extension from Gubbi to Harihar by the Southren Mahratta Railway Company who advanced a loan of Rs. 1,63,82,801. The whole line is under the administration of the Company.

63. The amounts of gross earnings in the three years 1888-89, 1889-90 and 1890-91 were Rs. 5,90,139, Rs. 10,11,559 and Rs. 12,27,681 respectively : the interest payable to the Company and on the loan of 20 lakhs and the working expenses are shown below ; in the working expenses is included a fourth of the net earnings due to the ompany under contract as profit :—

Details.	1888-89.	1889-90.	1890-91.
Gross earnings	5,90,139	10,11,559	12,27,681
DEDUCT.			
Interest payable to the Southern Mahratta Railway Company	4,57,820	5,95,703	5,68,273

68. The figures under collections given in columns 2, 3 and 4 above are from the Revenue Accounts; they are compared with the figures in the Comptroller's. The discrepancies are not so glaring as they were, showing that fair attention has been paid to instructions in para 48 of the Review of the Administration Reports for 1888-89.

69. Incidence of Land Revenue tax per head of population:—

		Rs.	
1.	Total amount on Raiyatwar holdings for 1890-91	78,17,892	
2.	Total agricultural population for the State excluding Civil and Military Station as per last Census	32,87,198	
3.	Average per head	Rs. 2—6—1	(a)
4.	Excluding dependents and calculating the tax per head of agricultural *workers* (10,52,508) the rate is ...	7—9—2	(b)
5.	The highest rate is in Kadur with agricultural working population 65,537	11—5—6	(c)
6.	The lowest, in the Mysore District with similar population of 261,684 which is the highest under that head in the whole State	5—11—2	

T. ANANDA ROW,
Chief Secretary.

To—The Deputy Commissioners of Districts.
The Heads of Departments.

APPENDIX.

MEMO.

The year may be divided into four rainy seasons. The cold weather rains (December to March) the hot-weather or the locally called April or mangoe showers (April and May), the South-west monsoon (June to September) and the North-east monsoon (October and November) so that there is rain every month in almost all the Taluks of the Mysore Country. The average fall for 20 years 1870-90 in each month in all the rain gauging stations is printed in Statement No. I A, and the quantity of rain registered in the year under review 1890-91 will be compared with their average. Four maps of Mysore showing the average fall in each of the seasons, the country being divided into tracts according to the variations of the rain-fall in different localities, are also printed.

2. *The cold weather rains.*—They are insignificant, scanty in quantity, and not much needed for the standing crops: they are however useful in keeping up the pasture supply of the country. The highest fall in the twenty years' average is 2·34 inches in the Chikmagalur Taluk and the least fall is 0·15 in Jagalur in the Chitaldroog District in the north: the country, therefore, is fairly divisible into two large tracts: one with rain-fall below an inch, and the other above an inch. The map of this season shows that the poorer tract is the great continuous plain country from Sorab, Shikarpur, Honnali and Channagiri in the north-west extending over the whole of the Chitaldroog District, the northern Taluks of the Kolar District, the northern, central, the southern Taluks of the Tumkur District and still further south the northern Taluks of the Mysore District, and the western Taluks of the Bangalore District: there are a few smaller tracts mostly in the south, south-east and east surrounded by the tract with more than one inch of rain and there is fair explanation for the diminished fall in these smaller tracts: for instance, the Taluks of Hoskote, Devanhalli in the Bangalore District and Malur in the Kolar District are to the west and south-west of the Nundydroog range and the range of hills running through the Kolar District north to south, and the cold weather rains coming, as they do, from the north-east and east, are considerably obstructed by these ranges, Malvalli and Kankanhalli again, where the average is 0·99 and 0·82 respectively, are consistently so with the neighbouring British Districts of Salem and Coimbatore with their 20 years' average of 2·20 and 2·92 and the direction of the rain is from this side and it is much obstructed by the high hills.

3. The tract with more than one-inch is also a continuous tract, very irregular naturally in shape: it is the whole of the Kolar District, the northern two Taluks excluded, the remaining Taluks of the Bangalore District, comparatively hilly, the central Taluks of the Mysore District, the whole of the Hassan District, Arkalgud excepted, the entire Kadur District and the western Taluks of the Tumkur District and the southern Taluks of the Shimoga District. The tract may be described as beginning in the east, running rapidly south-east and then west and finally north-west. The available information is not sufficient to account for the direction of these rains. Plain country, as a rule, may be said to receive less than hilly country; but the rule does not hold good in many instances. Mandya is a very plain country, it is better off than Krishnarajpete and Nagamangala: to satisfactorily explain the apparent irregularity of the rain-fall, it is necessary to have for each Taluk complete information about hills in the Taluk and their heights, the number of tanks, forests, maidan, &c.

Comparison with these averages of the fall in 1890-91 exhibits almost unaccountable facts, the Chitaldroog plain District had an average rainfall of 1·93 inches against ·44 of the 20 years average: In Chitaldroog the fall was 4·14 inches, in Challakere it was 2½ inches, in Holalkere nearly 3 inches, in Hosdurga nearly 2 ½ inches: only in three Taluks was the fall below an inch: the Kadur District consistent with the average was in the more rainy tract, and the quantity gauged was more in 1890-91 than the average and less than the Chitaldroog quantity which again cannot be reconciled with the average. In

the Shimoga District with the exception of Nagar and Tirthahalli Taluks, the rain-fall was above an inch. In Channagiri, a plain country, which in the 20 years average gets less than an inch (0·66) it was as much as 3·28 inches. In Sorab, another poor Taluk for cold-weather rains, it was as much as 3·25 inches: Hassan District appears to have done very poorly, their was no rain in Holé-Narsipur, Manjarabad, and Grama: and below an inch in Belur, Arsikere and Arkalgud and above an inch in Hassan and Channarayapatna; there is however in this District not very great inconsistency with the twenty years average. In the Mysore District, the northern Taluks of Krishnarajpete and Nagamangala and the southern Taluks of Heggaddevankote and Chamrajnagar received below an inch, while the other Taluks received higher supply: the rains were heavy in this District as a whole. Most of the Taluks of the Bangalore District changed their classes in 1890-91. Hoskota, Devanhalli and Nelamangala which under the average ought to be in the second group "below an inch" were in the first group; while Dodballapur received no rain. Similarly in the Kolar District where the Taluks changed classes considerably: Goriditnur and Gudibanda received 3·25 and 1·44 inches, greatly exceeding their average, while Chintamani and Srinivaspur had less than an inch: the whole of the Tumkur District, Huliyar and Turuvekere excepted, received below an inch.

5. The above comparison will show that while there may be traced something like a system in the average rainfall calculated on the figures for 20 years, it is almost hopeless to account for the apparent eccentricity of the fall of any particular year, without the more minute information regarding the physical features of each Taluk and the wind currents. The cold weather rains for the year 1890-91 may, on the whole, be said to have been good and ought to have affected very favorably the pasture for the year. The Chitaldroog and Shimoga Districts in the north and north-west respectively and the Mysore District in the centre had the largest quantity of this rain-fall, the Tumkur and the Hassan the smallest, the other Districts a moderate quantity.

6. *Hot-weather rains.*—These are very important to successful agriculture as a copious fall of these rains enables the raiyats to prepare the land for the following south-west monsoon. Calculating the average for the same period of 20 years and dividing the country into three groups of Taluks according to the quantity of rain-fall in them (*vide* map) below three inches, 3 inches to 5 and above 5 inches, the tract with the smallest rain-fall is in the north; the Taluks of Molakalmuru, Pavagada, Sira, Maddagiri and Bagepalli with an average rain-fall of 2·60, 2·78, 2·50, 2·50 and 1·88 respectively; in the neighbouring British Districts of Bellary and Anantapur, the average is not much more, 2·31 and 3·13. The highest average quantity is 8·33 and 8·32 in the Tirumakudlu-Narsipur and Krishnarajpete Taluks, and the lowest 1·88 in Bagepalli already mentioned. It is not easy to explain why Tirumakudlu-Narsipur and Krishnarajpete should receive this large quantity.

7. The second group with 3 inches and above up to 5 inches of rain consists of the Taluks of the Kolar District (Bagepalli excluded) the northern Taluks of the Bangalore District and the southern Kankanhalli Taluk of the same District, the central maidan Taluks of the Tumkur District (Kunigal, Gubbi, Chiknayakanhalli and Huliyar) and the Taluks of the Chitaldroog District, the northern and eastern parts of the Hassan District, the eastern parts of the Kadur District and the whole of the Shimoga District with the exception of the Shimoga Taluk; a continous tract of very irregular shape. The hot-weather rains are the heaviest in the Mysore and Kadur Districts: in all the Taluks in the former, the fall is above 5 inches, Tirumakudlu-Narsipur gauging as much as 8·33 inches: to the north-west of the Mysore District, that is to say in the Taluks of Hassan and Manjarabad and to the north-west of these again in the central and western Taluks of the Kadur District, the fall is also above 5 inches. These figures are fairly consistent with the 20 years' average rain-fall in the neighbouring Madras Districts: the Niligiris and the Wynaad, whence the Mysore District gets its supply, register between 9·38 and 8·51 inches and the Mysore District registers an average of 7·02

inches: the Bangalore and Anekal Taluks register 6·03 and 5·53 inches and the adjacent Salem District, whence they get their fall of rain, registers 5·57 inches. Hassan and Kadur Districts get an average of 5½ inches each, while the South Canara District in the west, gets an average of 6·64 inches: the high mountains between the British Districts and the Mysore country explaining the somewhat smaller rain-fall in Mysore. The April showers of 1890-91 were throughout the whole country better than the average. The Mysore District as is generally the case, received the heaviest fall—great deal more than the average, 7 inches—namely 10 inches; Kadur, almost the entire District was below Mysore with 6¾ inches against the average of 5½ inches. Similarly, almost the whole of the Shimoga and Hassan Districts received between 6½ and 6¾ inches, while the Tumkur District received nearly 6 inches against its average of 3·88 inches. Chitaldroog and Kolar kept to their respective average very nearly—average 3·8 and 3·6 respectively—3·92 and 3·98 of 1890-91: while there is thus a fair consistency between the 20 years average and the fall in the year under review taken by Districts, there is much difference if the comparison is made by groups for instance, Molakalmuru, Pavagada, Maddagiri, and Sira which under the 20 years average (2·60, 2·78, 2·50 and 2·50) is the poorest tract, was far from it in 1890-91, 5·25, 3·40, 4·66 and 5 inches; similarly, several Taluks of the Shimoga District. On the whole, the hot-weather rains for the year under review were much in excess of the 20 years' average; they were in 5 of the 8 Districts, *viz.*, Shimoga, Kadur, Hassan, Mysore, and part of Bangalore abundant for the preparation of soil for the south-west monsoon and raising hot-weather crops, and in the remaining 3 Districts sufficient for the former purpose.

8. *South-west monsoon.*—The south-west monsoon, perhaps the most important rains for the country which is mostly dry, requiring in consequence the steady soaking and persevering rains of this season; map No. 3 shows the distributions of the fall dividing the country into four groups, group No. 1 with rain-fall above 30 inches, No. 2 with 18 inches and above up to 30 inches, No. 3 with 12 inches up to 18 inches, and No. 4 with 6 inches and above up to 12 inches: all calculated as in the cases of other season rains on the figures of 20 years' average as mentioned in the commencement of this memo. The group with the heaviest fall is naturally the north-western tract, the high ground on the tops of the western ghats, the Taluks of Sorab, Sagar, Nagar, Tirthahalli, Yedahalli, Koppa, Mudgere and Manjarabad, a very narrow strip of country running from north-west to south-east, the greatest length being 132 miles; the greatest breadth 48 miles: the breadth in the north-west and south-east being not more than 40 and 24 miles respectively. The highest fall is in the Nagar Taluk 172·05 inches. Koppa and Tirthahalli receiving the next lower quantities of 102·05 and 101·74 inches: Mudgere has 76·59 inches: Yedahalli 42·09: Sorab 45·32: Sagar 59·36: Manjarabad 65·39 inches. It may be said that the strength of the monsoon is broken almost completely in this tract: for, in the adjacent Taluks of Shimoga, Kumsi and Shikarpur, the fall is comparatively as low as 21·85, 27·63 and 19·83 respectively, the three Taluks forming one block and the 2nd group with rain-fall from 18 inches to 30; the Taluks of Gubbi and Tumkur and the Taluks of Bangalore and Channapatna are also in this group with rain-fall of 18·28, 21·84, 21·52 and 91·43; these Taluks are far away from the Western Coast and there lies between them and the heavy rainy country of the north-west, a vast plain cut up by tolerably high hills and thickly wooded in many parts and yet the rain-fall in these Taluks is as much as in Shimoga and Shikarpur. The next group is where the rain is between 12 and 18 inches. One division of this group is made up of the whole of the Kolar District, Bagepalli and Chintamani in the north being excluded: the whole of the Bangalore District with the exception of the Bangalore Taluk and Channapatna Sub-Taluk and the Taluk of Kunigal and the Sub-Taluks of Turuvekere and Koratagere. The second division of this group is a narrow tract running from north-west to south-east almost parallel with the heavy rainy tract in the North-West and in most parts adjacent to and east of it, formed of the Taluks of Honnali, Channagiri, Holalkere, Tarikere, Chikmagalur, Belur, Hassan, Arkalgud and Hunsur. Between these two divisions of the group No. 3, is the plain with the smallest rain-fall beween 6 and 12 inches, the last group, one vast plain. The Taluks

of the Chitaldroog District, the eastern Taluks of the Hassan District, the western Taluks of the Tumkur District and the Mysore District with the exception of Hunsur: the least fall 6·23 is in the extreme south-eastern corner, Chamrajnagar of the Mysore District: the South-west monsoon is thus heaviest in the north-west sensibly decreasing at a distance of an average of about 36 miles from the mountainous country, driven fast over the central plain where it drops the least quantity of rain and impinging again on high elevations in the Bangalore and Kolar Districts and the Eastern ghats, where it drops more rain than on the central plain.

9. Comparing the South-west monsoon of 1890-91 with the average of 20 years, it appears that the fall was below the average in every District :—

	1890-91.	Average.
Bangalore	14·87	15·23
Tumkur	10·81	12·67
Kolar	12·67	13·95
Mysore	7·66	10·36
Hassan	11·21	19·29
Shimoga	47·49	52·87
Kadur	34·37	43·69
Chitaldroog	6·83	10·15

10. It is however consistent in its distribution, with the average; the north-west tract, Sorab, Sagar, Nagar, Tirthahalli, Yedahalli, Koppa, Mudgere and Manjarabad secured, as they should, the highest quantity: the tract next to it Shikarpur, Kumsi, Shimoga and the distant Taluks of Bangalore, Tumkur, Gubbi and Channapatna received a quantity corresponding to the second group in the average: and the eastern Taluks of Shimoga, Chikmagalur, Hassan and the western part of Mysore received similarly a still smaller fall again but almost corresponding with the 3rd group in the average: the same may be said of the Kolar and Bangalore Districts, while the central plain, consistently with the average, had the least fall in most parts: there is thus a greater system in the distribution of the rains of the South-west monsoon than in the other two previous seasons rains.

11. *The North-east Monsoon.*—Very important for filling the tanks especially; the highest average for 20 years is below 13 inches and the tract that receives above 9 inches and below 13 (group No. 1) is partly in the east and partly in the west. The latter Nagar and Tirthahalli in the Shimoga District, Koppa, Mudgere and Chikmagalur in the Kadur District, Manjarabad, Hassan, Arsikere and Holé-Narsipur in the Hassan District; Nagamangala, Krishnarajpete, Mandya and Mysore in the Mysore District: an irregular but continuous tract with a direction from north-west to south-east and east. In South Canara in the part just below the north-western Taluks of the Mysore country, the average rain-fall is between 14·16 and 19·93 inches and it is only natural that the Taluks above the ghats should average between 12·84 and 9 inches, the high mountains of the Western Ghats separating South Canara from Mysore. The part of the group No. 1 in the east is a large part of the east Kolar District, the Taluks of Chintamani, Mulbagal, Kolar, Bowringpet and Chikballapur: the Taluks of Bangalore and the Sub-Taluk of Channapatna, the Taluks of Tumkur, Tiptur and the Sub-Taluk of Huliyar in the Tumkur District: a tract continuous enough, but cut up and forming isolated bits in the Tumkur and Bangalore Districts: the fall in the east Kolar District where the average is 9 inches, is consistent with the average in Cuddappa and North Arcot 10·33 and 15·31 inches respectively remembering that the Eastern Ghats must, to a certain extent diminish the fall in the Mysore east.

12. The 2nd group is the country minus the 1st group, with rain-fall below 9 inches which is the least: this second group is the plain country, the north and east Shimoga District, the whole of the Chitaldroog District, the whole of the Tumkur District, the Tumkur, Tiptur and the Sub-Taluk of Huliyar being omitted, almost the entire Bangalore District and the South Mysore District: a fairly

continuous tract. The average for each District for 20 years is given below and compared with the fall of 1890-91 :—

		Average.	1890-91.
1.	Bangalore	8·41	10·08
2.	Kolar	8·78	8·43
3.	Tumkur	7·71	10·39
4.	Mysore	8·70	9·51
5.	Hassan	8·64	10·28
6.	Shimoga	7·08	10·30
7.	Kadur	9·08	9·05
8.	Chitaldroog	6·17	8·59

13. The table shows that in the year under review the North-east monsoon was very favorable and compares well with the average: it was as high as 15·90 inches in the Tumkur District, Chiknayakanhalli Taluk which according to average, ought to be in the comparatively poorer group No. 2, whereas it heads all the stations: it was the least in the Nanjangud Taluk 3·94.

14. The 1st group would be in 1890-91 slightly different; in the Mysore District, Malvalli, Mandya, Nagamangala and Krishnarajpete Taluks, all in a line from south to slightly north-east; similarly Gubbi, Chiknayakanhalli and Sira in the Tumkur District forming a block but unconnected with the Mysore block and standing by itself, which generally ought to receive but small quantity of rain. Grama, Holé-Narsipur, Arkalgud and Hassan also forming a block in the south of the Hassan District mixing with the Mysore block in the Krishnarajpete Taluk; Sorab, Sagar and Nagar, one block in the Shimoga District: Channagiri by itself in the same District, and the Kadur Taluk by itself in that District. The 1st group thus is a larger area in 1890-91, than in the average with rain-fall above 11 inches up to 16 inches, but cut up and disjointed, due probably to unusually violent storms which generally accompany the North-east monsoon and which scatter the rain clouds of the season: 1890-91 on the whole was a prosperous year, the rains were nearly up to, and in some parts more than, the average.

		20 years' average of all seasons rains.	Total average of the year 1890-91.
1.	Bangalore	29·34	32·37
2.	Kolar	27·58	26·13
3.	Tumkur	25·11	27·80
4.	Mysore	27·24	29·53
5.	Hassan	34·81	28·49
6.	Shimoga	65·29	66·47
7.	Kadur	59·72	51·79
8.	Chitaldroog	20·54	21·27

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 20th May 1893.

No. I A.

Statement showing the average rain-fall (monthly) in the several Stations of the Mysore Province from the year 1870 to 1890.
